Tuesday 3<sup>rd</sup> March 2020

My mum always hugs me and makes me ~~laugh~~ <sup>smile</sup> she hasn't had a day without work for a while she helps me with work and cooking too, she's definitely the best mum - its true - she tidies the house and the washing as well shes kind and caring, shes I dont ever hear her yell.

NHS is where she works. she makes people happy, work has its perks takes people feel good and helps them get better. she's a total go getter!
