	<h3 style="margin: 0;">BERKELEY Risk Assessment</h3>
---	--

<b>Location / Site</b>	
BERKELEY PRIMARY SCHOOL	
<b>Activity / Procedure</b>	
Whole School Provision – September 2021 Assessed in line with DfE guidance on end of restrictions – 28/02/2022	
<b>Assessment date</b>	
03/09/2021 – to be regularly updated and amended with best practice learned 28/02/2022 – Version 4.0	

Identify people at risk	YES or NO
<b>Employees</b>	<b>YES</b>
<b>Children</b>	<b>YES</b>
<b>Visitors</b>	<b>YES</b>
<b>Contractors</b>	<b>Yes</b>

Government guidance states for schools states:

“The safety of children and staff is our utmost priority.”

“The advice seeks to support staff working in schools, colleges and childcare settings, to deliver this approach in the safest way possible, focussing on measures they can put in place to help limit the risk of the virus spreading within education and childcare settings.”

“In education, childcare and social care settings, preventing the spread of the coronavirus involves dealing with direct transmissions (for instance, when in close contact with those sneezing and coughing) and indirect transmission (via touching contaminated surfaces.) A range of approaches and actions should be employed to do this.”

Safe distancing or 2 metres is a preventative measure that will be adopted so far as is reasonably practicable but it is acknowledged that this is not always possible in schools. However, all the measures in this assessment are aimed at reducing transmission risk.

Government guidance for parents concerning re-opening of schools states:

“We have provided guidance and support to schools, colleges and child care settings on implementing protective measures in education and childcare settings to help them **reduce the risk of transmission as more children and young people return.**”

“Whilst such changes are likely to look different in each setting, as they will depend upon individual circumstances, they are all designed to minimise risks to children, staff and their families.

Schools and colleges continue to be best placed to make decisions about how to support and educate their pupils during this period. This will include:  
Consideration of the pupils’ mental health and well being

## BERKELEY PRIMARY SCHOOL HEALTH & SAFETY

From 24th February 2022 the DfE issued new guidance on ending of Covid restrictions.

These state:

From Thursday 24 February the government is removing remaining domestic restrictions in England. This includes changes for schools such as no longer recommending regular testing for pupils and staff without symptoms and removing the legal requirement for people to isolate following a positive test - this includes school pupils and all staff in mainstream education.

Although there is no longer the legal requirement to self-isolate, a child with any of **the main COVID-19 symptoms** should order a PCR test and will not be allowed to attend school while awaiting the result or if the subsequent result is positive. Children with symptoms who do not obtain a PCR test must remain away from school. Parents/carers will be asked to collect their child if they develop symptoms whilst at school.

In these cases, children must stay away from school for 5 full days and may return after if they obtain 2 negative lateral flow test results on consecutive days, or after a total of 10 full days after the symptoms started if they feel well.

The three main symptoms remain:

- **a high temperature**
- **a new, continuous cough – this means coughing a lot, for more than an hour, or 3 or more coughing episodes in 24 hours**
- **a loss or change to sense of smell or taste – this means they cannot smell or taste anything, or things smell or taste different to normal**

Children should continue to attend school if they have not tested positive for COVID-19 and are well enough to do so. Children who are at home should access remote learning if they are well enough to do so, and parents must inform school if they wish to receive work at the time of reporting the absence.

Furthermore, it is no longer advised that pupil close contacts need to test daily for 7 days. However, the school may be advised by our local public health team to recommend lateral flow device (LFD) tests to manage an outbreak. Please be reassured that for most children, coronavirus (COVID-19) will be a mild illness.

However, the school will continue to observe good hand hygiene, cleaning regimes, ventilation requirements and other measures to manage the risk of transmission.

At Berkeley Primary School we will continue to:

- Conduct regular cleaning within the school day
- Continue with regular handwashing and reminders of hygiene
- Ensure good ventilation

The below Outbreak Management plan will be put in place **if** we are advised to do so by Regional Health Authority.

## BERKELEY PRIMARY SCHOOL HEALTH & SAFETY

### Outbreak Management Plan

In the event of a localised outbreak and following advice for the local health protection team, the following measures may be temporarily re-introduced at any time. A detailed risk assessment is below.

Face Covering	Face covering (masks) may be re-introduced in the event of a localised outbreak. This may be in all areas, or in areas where social distancing is not possible, such as corridors and communal areas.
Re-enforcement of “rules”	<p>Over time, staff and students may relax their attention to the measures that reduce the transmission of the virus. The measures may be re-enforced in the event of a local outbreak to include;</p> <ul style="list-style-type: none"> <li>• “Catch it, bin it, kill it”</li> <li>• Regular hand washing</li> <li>• Sanitising hands on entry and exit of a classroom</li> <li>• Cleaning down surfaces following each classroom use</li> <li>• Ventilation – doors and windows open</li> <li>• Classrooms rearranged to face forwards</li> <li>• Re-check Seating plans for every classroom</li> </ul> <p>In addition, the following measures may also be temporarily re-introduced;</p> <ul style="list-style-type: none"> <li>• Postponement of assemblies, events and larger gatherings where there is a high number of local cases.</li> <li>• Restriction of visitors to the school for meetings that can be conducted online</li> <li>• Assess and reduce risk for any school events involving larger gatherings based on current guidelines and transmission rates</li> </ul>
Student Bubbles	In the event of a local outbreak, it may be necessary to re-introduce student year group bubbles in order to minimise transmission between year groups. This will inevitably impact on education and is not a decision that will be taken lightly.
Lockdown	A lockdown measure, in which all learning converts to remote online learning, will only be taken if required by the local health protection team or central government. In the event of lockdown the school will be open for the children of key workers and vulnerable children as before.

Advice from the Regional Health Authority may mean further measures are put in place which are logged below.

## BERKELEY PRIMARY SCHOOL HEALTH & SAFETY

Red texts are control measures from Government Guidance – Coronavirus (COVID-19); implementing protective measures in education and childcare settings published 22/02/2021

Blue text are additional changes at each review

<b>Identify hazard</b>	Record the hazard that could cause harm or injury – add appropriate detail about the type and location of hazards		
<b>Lack of social distancing in the classroom</b> resulting in direct transmission of the virus			
<b>Existing level of risk</b>	Consider current level of risk		
<b>HIGH</b>	<b>MEDIUM</b>	<b>LOW</b>	<b>NEGLIGIBLE</b>
<b>Control measures</b>	List your control measures required to reduce risk – add appropriate detail about the type and location of controls		
<ol style="list-style-type: none"> <li>1. Reduce the number of children in the classroom to enable social distancing (no more than 30)</li> <li>2. Remove excess furniture to increase space if space to do so</li> <li>3. Coats on backs of chairs in Y4-Y6. Bags not permitted in school, unless by prior arrangement.</li> <li>4. Storage of water bottles should either be on individuals own desk or where this is not possible in a named section of surface for individuals use only.</li> <li>5. For any child who has forgotten water bottle, plastic cups are provided which are put in the dishwasher after single use.</li> <li>6. All staff within classrooms have the option to wear a face shield when working 121 with pupils.</li> </ol>

<p>Testing will commence 25<sup>th</sup> January 2021</p> <ol style="list-style-type: none"> <li>1. Tests are for all school staff only.</li> <li>2. Tests are assigned to an individual and must not be shared with anyone else (family or friends) or swapped with other staff members</li> <li>3. Tests are for the identification of asymptomatic cases, it does not replace isolation</li> <li>4. If a member of staff displays symptoms they do not need to do a LFT, they must isolate and get a PCR test and follow procedure</li> <li>5. Tests must be kept at room temperature</li> <li>6. Tests are to be performed by the member of staff themselves in their own home, so risks of transmission during test is limited to household members only</li> <li>7. Tests are supplied in sealed bags</li> <li>8. Waste from tests will be disposed of in household waste using the bags provided</li> <li>9. All results are communicated by staff directly to the Government via web portal and to the school via email</li> <li>10. Test kits that have missing items or are faulty must be reported to school with Lot number. This is then communicated to 119</li> <li>11. Instructions to staff on how to perform test will be discussed and concerns or questions addressed</li> <li>12. Instructions on ensuring hygiene measures are in place whilst performing the tests</li> <li>13. Any clinical issues, including allergic reaction or bleeding, must be reported immediately and communicated by SLT through the yellow card method</li> <li>14. Kit contains an extraction buffer solution that should be handled with care, even though these components do not have any hazard labels associated with them</li> <li>15. Positive results will result in isolation and PCR test, household and bubble to isolate until result of PCR test is known</li> <li>16. Void tests to be reported. New test to be opened and test repeated. If 2 void tests then action as if positive</li> <li>17. Tests will be performed twice a week</li> <li>18. If notified by Test &amp; Trace to self-isolate due to contact then staff must follow this instruction</li> </ol>
