

# "If Children are happy, they will achieve!" SUBJECT SNAPSHOT

## Little Jesters

There are flowers galore in Little Jesters. A pop-up garden centre is in place ready for the children to learn all about plants.

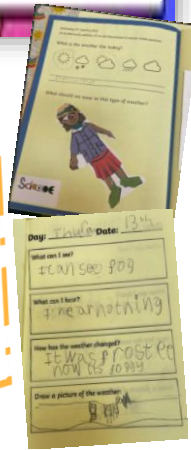

## Reception

The children have been exploring all things dinosaurs this term. They have been finding out about the environments that dinosaurs lived in and how this is similar/ different to their immediate environment.

## Year 1

This term has all been about seasonal changes. The children have been looking closely at the weather relating to each season. They have measured and recorded different weathers in a variety of ways. The children have loved the interactive weather map in the outdoor area.

## Year 2

Year 2 have been learning a lot of new vocabulary as part of their work on living things. They have been classifying animals and creating their own food chains.

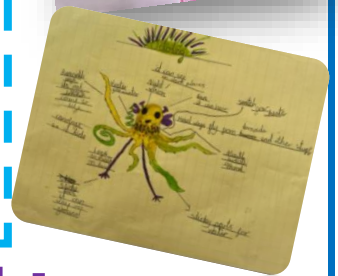

## Year 3

Year 3 have been looking at forces and magnets. They have discovered that opposites attract and conducted several experiments to learn all about magnetic fields.

## Year 4

The children have designed their own creature. They could add any feature as long as they could explain how it would help them live in their environment and adapt to any change in weather.

## Year 5

Year 5 have been investigating materials. They have been discovering which dissolve in liquid to form a solution. They've also looked at how to separate a mixture and studied reversible and irreversible change?

## Year 6

This term's Science is all about diet and lifestyle, leading on from their work on the circulatory system. Year 6 have been looking at the effects of diet and exercise on their bodies. They've experienced new foods and created their own healthy lifestyle booklets.
